SUMMARY

- Result-driven and talented Architect with years of industry experience in modern day architecture and urban design/development in line with Civil and MEP standards
- Highly skilled and talented Architect specialized in designing medium and large scale residential, corporate, public projects and properties
- Profound skills in comprehending drawings for Architecture methodology with alternative methods according to diverse site conditions and construction sequences
- Conversant with various design/architectural tools like Auto CAD Architecture, MS Office, Google Sketchup and Revit Architecture
- Profound experience in urban design projects like waterfront development and tourism related projects and dealt with urban planning, experience in research related to automobile free transport planning and proficiency in GIS based software and interface like ArcGIS and QGIS
- Proven skills in Adobe creative suite- Adobe Photoshop, Illustrator, InDesign etc.
- Excellent track record of the successful completion of various architectural projects through building positive rapport with vendors and clients
- Profound experience in SPACE (Strategic Planning, Services, & Structure) with utmost care and creativity, a well-designed structure can enrich design and development
- Deft with innovative design concepts before translating Sketchup3D models using traditional and digital methods

SKILL SETS

- Architectural Designing
- Client Interaction
- Revit Architecture
- CAD Drawing Preparations
- Space Planning
- Sketching
- Concept development & Visualization
- Design Presentation
- Cost Estimation

TECHNICAL SKILLS

- Autodesk AutoCAD
- Adobe Photoshop
- Autodesk 3Ds Max
- Vector works
- Sketch up pro
- Adobe Creative Suite
- Autodesk Revit
- Rhino 3D
- Lumion
- V-Ray
- ArchiCAD
- Grasshopper

SCHOLASTICS

- **Master of Advanced Architectural Design | University of Strathclyde | Glasgow, UK –2019**
Key Coursework: Cultural Studies, Professional Studies, Urban Landscape Design, Urban Design History, Design Studies, Urban Design
2nd Year Dissertation: [City on Foot: Walkability and Urban Form.](#)
1st Year Dissertation: [A stride toward Healthier Cities. Bicycle City: The City of Tomorrow](#)
- **Bachelor of Architecture | Pune University | Pune, India – 2017**

AWARDS

- Won medals at the National Association of Students of Architecture, India.

EMPLOYMENT HISTORY

University of Strathclyde, Glasgow, UK | Student Ambassador | June 2018 – Aug 2019

- Contemplated on the soft and technical skills to counsel the students and rendered a career guidance for the international student
- Handled the University promotion as student in social media

Ojas Hirani Architects & Engineers, Ahmedabad, India | Junior Architect & Team Leader | May 2016 -May 2017

- Pioneered in 3D illustration and rendering: AutoCAD, Revit, and Adobe Creative Suite
- Proficiency in GIS based software and interface like ArcGIS and QGIS
- Responsible for space planning, interior design development, budget planning, and construction document production
- Coordinated with educational programs offered by architectural and design vendors
- Designed interiors, 3D modelling and visualization new style of interior, furniture and decorative items using 3Ds
- Worked with textures and materials for objects, created compound material, worked with UV coordinates
- Created realistic lighting and rendering using V-ray
- Prepared presentation materials using Adobe Photoshop
- Negotiated with contractors and clients for regular meetings for improvisation of interiors
- Controlled projects from start to finish to ensure high quality, innovative and functional design
- Drafted drawings in AutoCAD and/or CET (typical, furniture plans, 3D's) Check other designers' specifications
Consistent update to Design Manager Continuous project updates with sales team
- Maintained the internal reporting systems, i.e. time sheets and project files adhere to deadlines of key deliverables
Prepare installation drawings and supporting documents (specs)

Prakash Gujarati Architects, Jalgaon, India | Trainee Architect | June 2015- May 2016

- Reviewed project information including existing technical reports, project drawings and/or specifications to learn the customer, operational and technical needs
- Prepared preliminary drawings and other basic presentation materials related to planning and design studies executed in association with routine, smaller, less complex projects
- Analysed, compiling, correlating, and reconciling technical data from a variety of sources to include in routine reports

Marthwada Mitra Mandal College of Architecture, Pune | Unit Secretary | June 2013 -May 2015

- Represented the College of Architecture at a range of national events and competitions including leadership for 40+ Architecture students
